Job Description

The ideal candidate will:

Support and uphold the philosophy, values and teachings of a Catholic education and the mission of The Saints Academy

Plan and prepare lessons, assignments, instructional materials

Serve as a member of the Middle School Team and collaborate with fellow teachers to help all students meet goals

Establish classroom environment and practices that encourage and constantly strengthen a strong, positive Catholic culture throughout the school

Set ambitious, measurable, and realistic goals for students

Adapt teaching methods and instructional materials to meet students' varying needs and interests

Monitor appropriate use and care of equipment, textbooks, materials, and facilities

Confer with parents and students regarding progress/challenges; arrange and participate in teacher-parent or teacher-student conferences whenever indicated for the welfare of the student

Fulfill all record-keeping and other administrative duties in a timely manner

Attend and actively participates in staff/faculty, family meetings, etc. and provides input regarding the planning of instruction goals, objectives and methods

Actively participate in professional development courses/classes offered to improve skill and knowledge

Perform other duties as deemed appropriate by the principal (study, resource group, etc)

Math Curriculum:

In grade 6, the focus is on four critical areas: (1) connecting ratio and rate to whole number multiplication and division, and using concepts of ratio and rate to solve problems; (2) completing understanding of division of fractions and extending the notion of number to the system of rational numbers, which includes negative numbers; (3) writing, interpreting, and using expressions and equations; and (4) developing understanding of statistical thinking.

In grade 7, the focus will be introduction of the foundational algebraic concepts in three critical areas: (1) developing understanding of and applying proportional relationships; (2) developing understanding of operations with rational numbers, working with expressions and linear equations, and solving linear equations; (3) solving problems involving geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area and volume.

In grade 8, instructional time should focus on three critical areas: (1) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (2) grasping the concept of a function and using functions to describe quantitative relationships; (3) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

Position Type: Full-time
